Emergency Responder Products

Low Price Guarantee Policy

We will not be undersold!

Because we offer factory direct products we are able to guarantee the lowest prices available for every product we sell. And that is 100% Guaranteed.

If you find any item at 911erp.com on any other website for a lower price we will match that price 100% guaranteed.

Terms and Conditions:

You must email us at sales@emergencyresponderproducts.com within 15 days of your purchase. The guarantee only applies to the actual price of the items on your order. Shipping and handling and taxes are not applicable. The item must be the same item number and made by the same manufacturer. Closeout items and going out of business sales do not apply. The item must be in stock and available for immediate delivery from the competitor's site. Refunds will be applied within 7 days after we are contacted. Emergency Responder Products, reserves the right to deny any price match if it does not fully meet the criteria specified above.

RETURN POLICY

Our return policy is simple. If you are not satisfied with your purchase for any reason, just contact us by phone or email, get a return authorization number and return your item within 30 days of delivery to you. We will refund your full purchase price of the item. The item can not be damaged or abused in any way in order to receive a full refund. Shipping and handling are not refundable. Items must be returned by a prepaid/insured traceable source, such as, FedEx, UPS or USPS Priority Mail.

PLEASE NOTE* Due to the Hazardous Material, Road Flares are not a returnable item.

Acceptance of Terms

Emergency Responder Products LLC, reserves the right to accept or reject any and all orders, regardless of the manner in which the order is made. Emergency Responder Products reserves the right to update these Terms and Conditions ("TAC") at any time without notice to you. The most current version of the TAC can be reviewed on the "policies" our web pages.

Place of Sale

Orders become valid, and the sale shall be deemed made in Old Bethpage, Nassau County, New York, subject to the terms set forth herein, when accepted by emergency Responder Products LLC. All sales are subject to the laws of the New York State, and the United States Government and other relevant foreign laws. The venue for all disputes shall be in the courts of New York. No change, modification or revision of your order shall be valid unless agreed to in writing by Emergency Responder Products LLC. Any terms and conditions set forth in the buyer's purchase order shall not materially alter terms and conditions set forth herein.

Restrictions on the Sale of Specific Products

The United States Government restricts the sale of certain products to international destinations in which an export license must be obtained by Emergency Responder Products prior to order processing. Orders for international destinations are subject to review by Emergency Responder Products and will be processed in compliance with all United States International Trade Regulations. All transactions are subject to screening against all published Denied Parties Listings made available by the United States Government.

Emergency Responder Products restricts the sale of selected products such as, but not limited to, embroidered apparel, badges, nameplates, insignia, emblems, and collar pins that identify the holder or wearer as a member of any law enforcement agency. Orders for such products must be submitted on department letterhead, and with a copy of official identification. Please call our Customer Service Department at 1-877-572-9592 for more details. When you place an order for products that are subject to any legal restrictions, you warrant to us that you are authorized to make such purchase, and you are in compliance with all local, state and federal laws concerning same. As a double check to protect the public, please understand that we may verify employment of any person ordering such items. We apologize for any inconvenience this may cause.

Restriction on Purchase or Possession of Body Armor It is generally against Federal Law for a person convicted of a violent felony to purchase or possess body armor. In addition, various States also have laws restricting the purchase or possession of body armor by persons convicted of certain felonies, other crimes of violence, or drug crimes. By purchasing body armor from Emergency Responder Products, you acknowledge and certify that (i) you have no felony convictions, (ii) you have not been convicted of any other crime that would restrict your ability to purchase or possess body armor under any Federal or State law, (iii) you do not intend to use the body armor for any criminal purpose and (iv) you are over 18 years old. Emergency Responder Products reserves the right, in its sole discretion, to refuse to sell body armor to any person. Additionally, the sale of body armor to residents of Connecticut is restricted to in-person sales, unless the sale is made to certain law enforcement or military personnel.

Telescopic Expandable Portable Barricades

This portable telescopic barricade extends from 19" to 8 feet in seconds. It only weighs 15 lbs, making it light enough to carry, but stable enough for traffic conditions. The barricade is 43" high and can be locked into place to your desired size. This unit has 52 reflective stripes on it. is great for both vehicle and pedestrian traffic control. The barricade also includes 2 safety strobes that easily attach to the barricade post sections. The base of the barricade can also be filled with sand or water for extended use operations. The unit collapses easily into itself for easy storage and convenience to transport.

TELBAR

Instacade Portable Barricades

Insta-Cade introduces a revolutionary pedestrian management barricade that makes sense for everyone. Insta-Cade lets you set up seven feet of protection in just seconds. The unique X-brace design unfolds instantly to create the most complete barricade system anywhere.

Fire/Police personnel love the easy of use, the compact storage and the lightweight design. It might be light in weight, but the revolutionary design keeps this unit standing even in tough winds. This unit can be deployed in just seconds. Block a lane of traffic in an instant with Flex Safe.

Roll Up Portable Arrow Boards

When we say that this traffic arrow is portable, we're not kidding. This arrow measures 32" wide X 18" high. It's sturdy Black vinyl and is equipped with heavy duty magnets and grommets for universal mounting.

You quickly mount this to your trunk or rear of your SUV or even on the side of your vehicle.

When you are done, simply roll it up and put it away!

It is powered by 3 "AA" batteries that give you 100 hours of constant operation. Here is the best part. It rolls up neatly into a pouch for easy storage.

This unit is a MUST for Fire Police, Police, or anyone who is on the road and needs to direct traffic. It is small enough to store in your trunk, but big enough to move traffic.

Rolled up the unit is a mere 4" wide. You have to see this to believe it!

The arrows are equipped with 9 super bright LED each arrow as well as each arrow being reflective

Go to our website to see this unit in action.

TA4685

Ez-Stor Road Cones

EZ-Stor Road Safety Cones are collapsible Road Cones that meet Federal standards. Imagine carrying four (4) 28" road safety cones in the trunk of your vehicle while only using 1 cubic foot of space. Each Ez-Stor road safety cone also has a cluster of LED interior warning lights for extra night time safety. Each set includes a custom carry case. These ez-stor road safety cones are a must have for law enforcement, fire/police units, fire apparatus, Utility Company supervisors or anyone who values space in their vehicle.

EZSTSACO

Portable Speed Bumps

SLOW 'EM DOWN with our portable Speed Bumps. These speed bumps are easy to deploy and offer a more safer scene.

Perfect for Scene Safety

On demand speed bump, only deploys when needed

All weather self-contained speed bump

Community friendly

Eliminate maintenance problems associated with permanent speed bumps

Relocate from site to site

Great for School Zones, Emergency Scene Zones, Traffic Stop Zones just about anywhere you want motorists to slow it down.

SBM3A

Handheld Stop Sign

This handheld non-lighted, non-reflective STOP sign is 18" with 6" letters. It has a 10" handle.

They are available with STOP on both sides or STOP on one side and SLOW on the other.

This reflective hand held sign is 18" in diameter and is made of the same ACM material that is used for large construction signs. The reflective material makes this great for use at anytime of the day or night.

STOP18121R

Telescopic STOP Sign

Reflective 24" STOP/SLOW sign with Tele-Pole
Quick coupling allows the Tele-Pole handle to telescope for increased bottom height and storage.
Our tele pole telescopes to a maximum bottom height of 84". Also available with an 18" reflective sign.

STOP2484R-POLE84

Lighted STOP Sign

Ultra bright light emitting diodes within the text
Distinctive flash sequence
Microprocessor controlled
Automatic activation of LEDs when held upright
Battery powered (3 'C' cells, not included)
18" Octagon shape, 6" Letters
TCS-1: STOP/SLOW Traffic Control Sign (113 LEDs)
TCS-2: STOP/STOP Traffic Control Sign (104 LEDs)
TCS-6: 6' Extension Pole (not shown)
Optional Pole: \$35.99

Light For Life LED Traffic Signs

Light For Life Signs are unlike any other traffic control sign on the market today! Using an array of ultra-bright LEDs in a pixel arrangement, our 2-sided "paddle-type" sign will capture the attention of all approaching traffic in any weather condition. Visible for up to 1 mile at night, in low light and no light situations! Hand-held or stand-mounted, our battery powered signs are programmable, sequence flashing, lightweight, durable ... highly visible.

Our signs feature a "quick-change" battery module, and a telescoping handle for sturdy base support and can be mounted on any vehicle with a quick release arm that holds the sign securely. Single and double, hard and soft cases are also available for ease of transport.

Our signs will be seen before headlights contact the control safety sign. Now you can be sure your sign is visible! Standard signs will have "STOP-STOP", "STOP-SLOW" or "SLOW-SLOW" configuration. Programmable signs will have five optional wordings for each side.

TurboFlare USA

The TurboFlare is a multi-task, extremely bright, personal safety device. This revolutionary product is a true technological achievement in safety equipment.

The TurboFlare is rugged, reliable, and economical. Conveniently powered by only 4 'AA' batteries, it provides a bright rotating light source visible from great distances. And the TurboFlare will run for more than 88 hours on a single set of batteries.

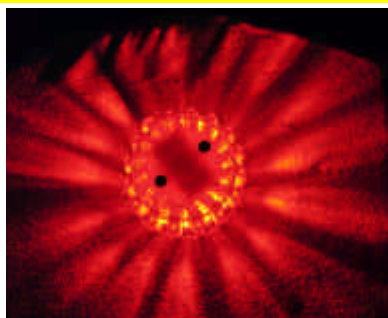

The body is shock proof, vibration proof, and weatherproof. When everything else around you fails, you can always trust your TurboFlare to stay strong when you need it the most.

You can also purchase a single unit for \$19.95 each , no case is included.

TURBO36008

Traffic Guardian LED Traffic Safety Lights

Equipped with 16 super bright LED (red or yellow available) it gives 360° coverage with over 10,000 hour LED life. Nine different selectable flashing patterns to choose from, including a Built-in S-O-S Morse Code distress signal!

High power magnet attaches easily to metallic surfaces such as your vehicle, police car or fire apparatus.

Constructed of super high strength plastic with a TPR plastic shield. Virtually crush-proof. It can be driven over by a truck. Completely water-proof at depths over 100 feet.

Visible over 300 yards in daylight, up to 1 mile at night, up to 10 miles from the air. Great for Landing Zones

One CR123A high capacity lithium battery provides up to 100 hours of continuous working time. Battery has a **10-year shelf life**.

ELZ™ / Traffic Safety Strobe

2C71008

Only
\$69.95
each

No ignition danger, no more burns or ruined uniforms. These environmentally friendly strobes replace flares and are safer and more economical to use. These completely waterproof strobes perform a host of duties—explosion resistant roadside hazard markers, underwater SAR markers, command post or escape route markers, traffic control, hose markers and search markers. The weighted, spring loaded bases keep the Strobe 200 upright on all surfaces, even with heavy wind or rotorwash. No assembly is required, so there's no fumbling around in the dark. Each strobe is 3.5 pounds and 9.5" tall and folds for compact storage. Shipped with RED lens, standard. Available with 6 optional lens colors including infrared (IR). Light folds flat for storage.

ELZ™ / 5 Pack Traffic Kit

TS571008

Each strobe is 3.5 pounds and 9.5" tall and folds for compact storage. Available with 6 lens color options including infrared (IR) packed in a waterproof case. Red. Amber Blue or Clear

ELZ™ / 10 Pack Traffic Kit

Each strobe is 3.5 pounds and 9.5" tall and folds for compact storage. Available with 6 lens color options including infrared (IR) packed in a waterproof case.

Road Flares

Our Flares feature the SAFE-T-CAP® Spark Deflectors system

BSXXXXPSZ-412-S

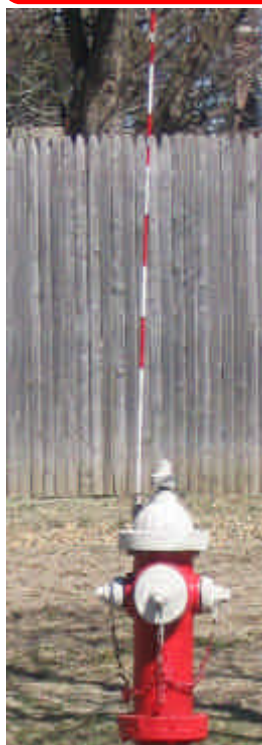

The "PINK" has become the new standard in emergency scene management. Our signs are available 36" or 48". The signs have a highly reflective pink and come with a springless stand that neatly folds into a compact storage position. An optional carry bag is also available.

The SafeZone Series SZ-412 is a super lightweight compact springless sign stand for use with roll-up signs. Easy to use and easy to store, its single sign attachment point allows for quick deployment in the field. Telescopic legs with both pull pin and kick release levers can be released by hand or foot for fast set-up. Independently adjustable legs with three height adjustments for uneven terrain makes for ease of use along right of ways and medians. Designed to meet the minimum height requirement as set forth in the MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD) and NCHRP-350 tested and certified (with roll-up signs), it is as safe as it is functional.

Only
\$254.89

48" Sign \$299.99

Hydrant Markers

Our hydrant markers are a great way to find your hydrants. The markers are 60" and have reflective material for easy nighttime location. They are available as a top mount marker or a spud mount marker. Choose from markers with springs or without. The durable fiberglass rods are weather and vandal resistant.

If you have a need for large quantities, call us for special pricing. We quote special prices for quantities of 100 or more.

Side Mount with Spring

FHM25N

\$19.95

60 " side mounted on the hydrant 2 1/2" spud with a spring for easy displacement if need to open the hydrant.

Side Mount No Spring

FHMNS

\$14.75

60 " side mounted on the hydrant 2 1/2" spud without a spring. Also available for the steamer connection

Top Mount with Spring

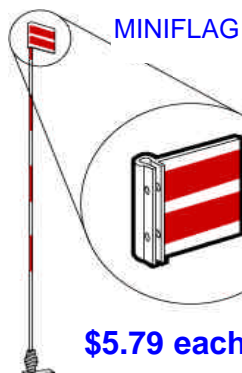

FHM60

\$16.95

60 " top mounted on the hydrant bonnet with a spring for easy displacement if need to open the hydrant for a more permanent type mount.

Hydrant Marker Flags

MINIFLAG

\$5.79 each

The Mini Flag™ is designed to be retrofitted onto hydrant markers. The 4" high x 5" wide Mini Flag™ is white PVC exterior grade UV ray resistant material, with red reflective striping. The Mini Flag™ can be color coded for any hydrant type identification purpose (i.e. water pressure, etc.) or you can use your own label. Available in Red, White/silver, yellow, green, blue reflective striping

Patriot Markers

American Patriot Hydrant Markers are a great way to show your patriotic pride in your community. Pricing will depend on the model of hydrant marker you need. see our website for details or call us for more information

Hydrant Mount STORZ

\$216.95 - 4" Storz
\$227.95 - 5" Storz

Hydra-Storz is a quick-connecting hydrant system that lets you hook up without removing caps, unjamming chains or worrying about cross threading. Access is restricted to only authorized personnel. The connector is made of forged aluminum with rugged stainless steel butterfly vanes. This configuration makes Hydra-Storz connectors tamper resistant, reduces maintenance costs and is perfect for mutual aid without reducing water flow. Hydra-Storz connectors can be installed quickly and easily.

Please remember to specify your hydrant size 4" or 4 1/2" and your STORZ connection size, 4" or 5". This connection is the fastest way to connect to a hydrant.

STORZ Snap Cap

Protect your Storz connections with Hydra-Snap Cap. These lightweight, inexpensive, highly-visible plastic caps keep mud, road grime, ice and snow off the Storz lugs. **\$34.99 - 4" Storz**
\$41.49 - 5" Storz

Out of Service Marker

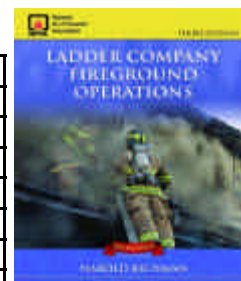

\$7.79 each

This color-coded "Out of Service" marker allows fire departments to easily and discreetly mark fire hydrants that are in need of service. This marker uses the Port Mount Hydraview™ which allows the unit to be totally removed for service or emergencies.

--	--	---	--	--	---

Top grain leather badge holders that clip on the belt with a strong steel spring clip. Available for generic pin-ins or a custom recess. Circles are for star badges and ovals are for shields.

Wallet and Badge Case

Custom, recessed and generic cases are made of quality leather and crafted with pride. The custom cut-outs shown here are only a sample of the unlimited number available. 2-1/2 oz. leather badge cases and wallets are soft and luxurious in feel and appearance. The turned edges and lined bill-fold compartment add an additional touch of quality. 4 oz. leather badges, cases and wallets have the same quality and durability but are made with a thicker leather which some officers prefer.

ESKA Leather Firefighting Gloves

ESKAG

ESKAW

The new ESKA Firefighting Glove is constructed of high quality leather with Kevlar reinforcements. They meet the requirements of NFPA 1971, Standards on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting, 2007 Edition. The inner lining of the ESKA glove is constructed with a Crosstech membrane to protect against bloodborne pathogens. This membrane is built-in from finger tip to the end of the shell and is waterproof. It provides active-breathing and optimum heat and cold protection. This lining is 100% permanently attached by means of an ESKA patented process. The special composition of Kevlar lining enhances the glove with permanent and natural anti-odor, anti-static, and thermodynamic properties. The specially treated leather is waterproof, non-flammable, non-shrinking and oil and acid resistant. A wide heat pad and retro-reflective flame-resistant 3M Scotchlite trim are added for high visibility.

* ERGONOMIC PATTERN: The glove features the same "resting position" as the hand (i.e. slightly bent-vaulted)

* THREE-DIMENSIONAL CONSTRUCTION: The pattern is constructed of four parts, making it 3-D, just like the human hand. (most gloves are made as two parts).

Extensive reinforcement for greater durability. Also ideally suited for technical applications. Anti-Slip and wear-resistant palm reinforcement made of soft silicone-carbon coated Kevlar..

Available in Med- XXL **\$124.99 each pair**

ESKA Fabric Firefighting Gloves

The NEW ESKA "Fabric" firefighting glove is a lightweight, fire resistant Kermel material that does not retain water and dries faster than leather.

The ESKA gloves will not harden or shrink after being exposed to water, direct flame or chemicals.

Kevlar/Silver blend liner provides heat and cut protection and is also anti-odor, anti-fungal, anti-static and thermo dynamic.

CROSSTECH membrane blocks bloodborne pathogens, fluids, chemicals and water.

3-dimensional glove pattern follows the natural curve of your hand to provide greater dexterity, fingertip tactility and overall comfort. Available in Med- XXL **\$124.99 each pair**

ESKAFG

Command Kit

The Case Commander™ Command System will allow the I.C. to easily track assignments of personnel and apparatus through the use of the National Incident Management System. Large or small incidents can be managed with this system. Fill out your Command and General staff only as necessary.

The dry erase surface has space for size-up notes, strategic & tactical planning, assignments, PAR, special hazards, tactical considerations etc..

The I.C. will sketch a layout of the incident then place the magnetic tags representing Apparatus, Officers & Crews onto the board in the positions of their assignments. Then the I.C. can track all fireground Groups and Divisions as well as the Officers leading them.

A timer clock with an alarm tracks time and facilitates prompt PAR reports.

Included are 50 custom engraved magnetic tags representing your apparatus and officers. These tags are typically engraved with the Radio designations of all Department Officers, Apparatus as well as common Mutual Aid providers.

Features:

- * Fully N.I.M.S. compliant
- * Heavy duty case
- * Built in wheels and legs (no separate pieces to store)
- * Large Clock with timer and alarm
- * LED light
- * Large Dry Erase surfaces printed with Incident Command worksheet
- * 50 Custom Engraved Magnetic Tags
- * Dry erase markers and eraser included
- * Storage area below lower board

**Only
\$1199.00**

Dashboard Command Kit

Most command boards cannot be used in the front of the car, but the Dashboard Commander™ was designed specifically for this purpose. The dry erase surface has space for size-up notes, strategic planning, assignments, PAR, hazards and a sketch of the scene. A stopwatch clock tracks time.

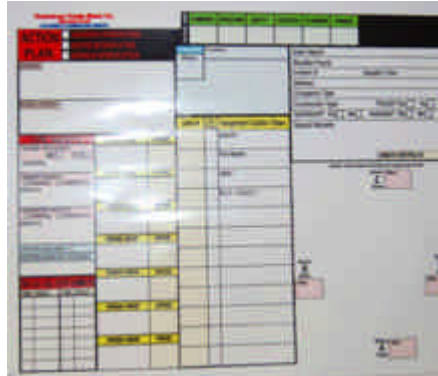

Included are 38 custom engraved magnetic pieces representing your apparatus and officers. You place these magnets on the board to track the assignments of your teams. Custom formats are also available.

The Dashboard Commander™ command board comes with the following:

- * 38 custom engraved magnetic tags that represent your apparatus & Officers.
- * 4 Dry erase markers (2 Red & 2 Black) and eraser.
- * Stopwatch clock to track incident times and PAR.
- * Heavy duty nylon carrying bag.
- * Dimensions 12" x 18"

**Only
\$425.00**

Flexible Command Board

The Flexible Command Sheet is used to track your strategy and tactics at an incident. It is also used to record your Personnel Accountability Reports, Officer, Crew & Apparatus assignments. An area to sketch the scene including sector assignments is also included. The sheet is compatible with Expo 2™ dry erase markers or can

be used under a clear acrylic sheet.

The Flexible Command Sheet can be used by itself, simply rolled out on a table or in Command Cabinet units with clear acrylic overlays. The sheet is printed on flexible vinyl and unlike paper command sheets it will not be ruined if it gets wet.

In a Command Cabinet with a drawer just lay the Flexible Command Sheet in the drawer and cover with the acrylic overlay, then you can use dry erase markers to plan your strategies and tactics using the printed sheet as a guide.

**Only
\$49.00**

Command Flag

Easily identify who is in command at the scene of an incident with our light weight Incident Command Flags. The rigid flag tube fits over any vehicle antenna. Each flag is made of high visibility orange weather resistant nylon and 3M reflective letters placed on both sides. Large enough to see but compact enough to easily store in your vehicle.

APH-12	12ft AP Hook	\$165.00
"D" Handle	"D" Handle opt	\$15.00

Choice of Knob End, Electrically Non-Conductive, and Celtex Grips. Deduct \$5.00 if without celtex grip.

The New York City Fire Department standard hook to exact specifications in every detail.

The most versatile hook used in the fire service today.

New York Roof Hook

This tool was developed with the New York City Fire Department research and development division. Our all-purpose head, aircraft steel shaft, chisel end, and celtex grips makes up this unit. The strong chisel end is used as a prying tool for scuttle hatches and roof doors. The short lengths are good for going up fire escapes and scuttles to the roof. The tool is crafted of aircraft steel for lightweight, but strength.

A Ring can be added to chisel end for venting top floor windows from the roof. add an additional \$20.00.

One of our most popular hooks!

RH-3	3ft Roof Hook	\$85.00
RH-4	4ft Roof Hook	\$95.00
RH-5	5ft Roof Hook	\$105.00
RH-6	6ft Roof Hook	\$115.00
RH-8	8ft Roof Hook	\$125.00
RH-10	10 ft Roof Hook	\$150.00
Ring to Chisel	welded ring to side of chisel	\$20.00

No roofman should leave the truck without this tool.

Dry Wall/Sheetrock Hook

A hook specifically designed for Sheetrock walls removal of all types. Can be used on other materials such as wood, plaster, sheet metal walls and ceilings. An exceptional overhaul hook!

Size	Solid White Ash Wood	1" solid fiberglass	1" fiberglass w/ ash wood core	1 1/4" fiberglass/ash
4 ft	\$80.00	\$90.00	\$80.00	\$90.00
5 ft	\$85.00	\$95.00	\$85.00	\$95.00

14 ft	\$150.00	\$180.00	\$150.00	\$180.00

Choice of Knob End, Stainless Steel Wear Sleeve, and Celtex Grips.

D-Handle Option available for an additional \$15.00

Features:

Larger Contact Point, Conventional Penetration, an Arc Hook, Exceptional Pry Action, Combination Rake and Hoe.

Handles options : 1" or 1 1/4 inch Fiberglass with a solid white ash wood core, 1" solid fiberglass or solid white ash wood

Combination Hook

Add rings and a carry strap for \$30.00

The combination Hook features a Boston Rake on one end and an All Purpose Hook on the other, connected by a 1" fiberglass pole with sanded Celtex grip. Need a different head combo, let us know, we can combine almost any 2 heads.

CH36	36" Pole	\$85.00
CH48	48" Pole	\$105.00
CH72	72" Pole	\$110.00

Arson Trash Hook

This hook was developed to find hidden fire in deep seated smoldering fires normally found in dumps or dempsey dumpsters. The normal hook just won't pull trash in large quantities. Our trash hook, because of it's two large six inch pointed prongs, will grasp debris in huge chunks

"D" Handle is standard on this hook, but Choice of Knob End, or Slotted/Gas Shut -off End is available.

TRHK-4	4 ft AT Hook	\$95.00
TRHK-6	6ft AT Hook	\$105.00
TRHK-8	8ft AT Hook	\$115.00
TRHK-10	10ft AT Hook	\$145.00
TRHK-32	10ft AT Hook	\$90.00
TRHK-40	12ft AP Hook	\$90.00
"D" Handle	Ram Knob	Slotted End

Boston Rake Hook

Presently in use by the Boston Fire Department. On the head we have forged the Boston design out of carbon steel joining it to a stainless steel wear sleeve.

D-Handle Option available for an additional

BRH-4	4ft Rake Hook	\$80.00
BRH-5	5ft Rake Hook	\$85.00
BRH-6	6ft Rake Hook	\$90.00
BRH-8	8ft Rake Hook	\$100.00
BRH-10	10ft Rake Hook	\$145.00
BRH-12	12 ft Rake Hook	\$155.00
BRH-14	14 ft Rake Hook	\$175.00

Providence Pierce Hook

An update of the arrow type hook used by the Providence Fire Department. Penetration is supreme with its arrow head design. The tapered hook compliments the functional use in opening ceilings, walls, and flooring. The pole end is the same as the Boston Rake Hook. Perfectly balanced and lightweight, yet super strong.

D-Handle Option available for an additional

PPH-4	4 ft Pierce Hook	\$80.00
PPH-5	5 ft Pierce Hook	\$85.00
PPH-6	6 ft Pierce Hook	\$90.00
PPH-8	8 ft Pierce Hook	\$95.00
PPH-10	10 ft Pierce Hook	\$140.00
PPH-12	12 ft Pierce Hook	\$160.00
PPH-14	14 ft Pierce Hook	\$180.00

Ecker Hook

The pride of the mid-town (NYC) trucks. Used to open tin ducts, air conditioning systems, and complex metal hoods found in restaurants. Its sharpened edge serves to penetrate tin on the push stroke while the six sharpened teeth on the under-side complete the cut on the pull stroke. Can be used conventionally in the removal of lathe and plaster.

D-Handle Option available for an additional

EK-4	4 ft Eckert Hook	\$80.00
EK-5	5 ft Eckert Hook	\$85.00
EK-6	6 ft Eckert Hook	\$90.00
EK-8	8 ft Eckert Hook	\$100.00
EK-10	10 ft Eckert Hook	\$145.00
EK-12	12 ft Eckert Hook	\$155.00
EK-14	14 ft Eckert Hook	\$175.00

Gator Back Hook

It will cut lathe, plaster, and sheetrock faster than any tool on the market today. On its back is ten sharpened cross cutting teeth that can cut on the pull stroke as well as the push stroke.

D-Handle Option available for an additional

GBK-4	4 ft Gator Hook	\$100.00
GBK-5	5 ft Gator Hook	\$105.00
GBK-6	6 ft Gator Hook	\$110.00
GBK-8	8 ft Gator Hook	\$120.00
GBK-10	10ft Gator Hook	\$150.00
GBK-12	12ft Gator Hook	\$170.00
GBK-14	14ft Gator Hook	\$180.00

San Francisco Hook

The hook used by the San Francisco Fire Department since the turn of the century. We streamlined the design and brought more function to its features. A sharpened edge and penetration point was added to the right angle along with large gripping teeth on the underside. Celtex grips and fiberglass shaft completes this unit. A gas shut-off and directional slot is built into the ram knob.

FH-4	4 ft Frisco Hook	\$70.00
FH-5	5ft Frisco Hook	\$80.00
FH-6	6ft Frisco Hook	\$85.00
FH-8	8ft Frisco Hook	\$100.00
FH-10	10ft Frisco Hook	\$140.00
FH-12	12ft Frisco Hook	\$155.00
FH-14	14ft Frisco Hook	\$170.00

D-Handle Option available for an additional \$15.00

Universal Hook

This hook does it all. It can penetrate or pull all types of materials used in the building trades. It features two sharpened blades, one on the top for penetration during thrust and one underneath for slicing on the pull stroke. An arc hook on the back of the top blade is used in place of limited space. A chisel tooth of 1-1/2" right angle blade-tooth is sharpened to penetrate loose materials on the chop stroke.

UH-4	4ft Universal Hook	\$85.00
UH-5	5ft Universal Hook	\$90.00
UH-6	6ft Universal Hook	\$95.00
UH-8	8ft Universal Hook	\$110.00
UH-10	10ft Universal Hook	\$145.00
UH-12	12ft Universal Hook	\$165.00
UH-14	14ft Universal Hook	\$185.00

T- Hook

Specifically designed for residential roof work. (2) sharp teeth at each end of the T-head make penetration of 90 lbs to 180 lbs roof with little effort.

A sharpened chisel on the handle end adds to the functional make-up of the tool. Superior prying capabilities when removing roof boards. Excellent overhaul tool. Exclusive celtex grips.

TH-3	3 ft T-Hook	\$45.00
TH-4	4 ft T-Hook	\$65.00
TH-5	5 ft T-Hook	\$75.00
TH-6	6 ft T-Hook	\$85.00
TH-8	8 ft T-Hook	\$95.00
TH-10	1- ft T-Hook	\$105.00

Chimney Hook

\$150.00

CH-26

Designed to break up creosote build-up after fire is put out. The 824 is a 3 section fiberglass extension pole with a unique ram head. It extends from 8-ft to 24-ft and is made to fit any straight chimney.

To use this, lower the top 9 ft section to blockage, turn posi-lock pole 1/4 turn clockwise to lock. If blockage is not felt, lower the second section and repeat first step until blockage is found. The pole will not separate at each section but must be locked in order to push through the blockage. this is shipped by Common Carrier.

Outside Vent Hook

Two position-Positive guide sliding channel with lock stop. Sure lock clevis pin with cable attached to the guide nut. Less loss and easy access with this feature. Ball spring release without groping for holes. All stainless steel surface when in closed position with the exception of our sanded celtex safety grips. Fiberglass rod slides in the stainless steel tubing.

OV-810	extends 8 ft - 10ft w/ ram knob	\$145.00
OV-686	extends 6ft - 8' 6" w/ ram knob	\$120.00
OV-466	extends 4 ft- '6' 6" w/ ram knob	\$105.00
OVD-810	extends 8 ft - 10' w/"D" handle	\$150.00
OVD-686	extends 6 ft - 8'6"w/"D" handle	\$130.00
OVD-466	extends 4ft - 6'6" w/ "D" handle	\$120.00

The Hook System

This system was developed for apparatus with limited space. It consists of an All Purpose head, a sheetrock head, trash hook head and a national hook head. It also has two sections of handles using stainless steel threaded connectors. The first section is 4 ft combined with a head for a 6ft pole, add the 2 1/2 ft section and you have almost a 9 ft pole. Need a short tool? Use the bottom section and any head

All of this for only **\$295.00**
MHS-19

TOOLS

Captain's Hook

\$75.00

CH24

A new style officers hook, this one is 24" in length and has a chisel end for prying. Made with a roof hook head and cel-tex grips, a "baby roof hook".

Griff Hook

\$95.00

\$60.00
OFH17

A personal hook for the officer. All steel construction. Stainless steel handle. No slip celtex grip. For venting, examination holes or for use as a probe during primary searches. Will shut off gas with its built in feature. Can be used as a pry bar, chopping axe or ram. Length 17"

Hooligan Hook

STYLE 1

A NEW and INNOVATIVE design with a forward gripping handle. Provides for better hand positioning and less fatigue on the push and pull stroke. Can be used with any of the below style hooks

STYLE 2

Tri-Twister Hooks

This hook was designed by the San Francisco Fire Dept. It is used as a 6ft hook for normal work, but add in a unique feature of heavy threaded stainless steel with a thick wall screw attachment and now your reach is 10', 12' or 14'. Joined together by . You can join these sections together by simply twisting the top unit to the bottom unit, making the unit ULTRA STRONG, but yet functional. The top unit can be used as a 6' Hook for normal firefighting use. When high ceilings use is needed, the bottom section is attached.

Removes Rim Locks, Mortise Locks, Tubular Locks, Key-in-Knob Locks, Fox Police Brace Locks, Fox Police Double Locks. Can also be used to Probe during Searches, Vent Windows, make examination holes, serves as a portable Pry-Bar, and removes Locks on car trunks. Includes 20" mini Pro Bar, Celtex grip, Kerry Key and shove knife.

Great Officers Tool!

Officers Mini Pro Bars

O-Bar Kit

\$89.00

OBK16

Steel forged and welded construction with shock absorbing handle grip that holds the Kerry key. This item is very similar to the O-Tool Kit, except that the O-Bar has a Halligan-like spike on the "A" style lock puller. The O-Bar "Kit" comes with Celtex Grips, Kerry key and a shove knife.

Officers Tool Kit

\$69.00

OTK16

This tool meets the specifications of FDNY for their standard officer's tool. It's made of high strength steel with the head welded to the shaft. The shaft is covered with a non-slip gripping surface, the shaft end of the tool is formed into a pry bar capable of slipping into tight spaces. The head of the tool has a flat driving surface, with an A-type lock puller machined into the adz of the blade. The complete "thru-the-lock-kit" available with the tool contains the officer's tool, a double ended "key" tool and shove knife. The kit can be stored inside the non-slip grip of the tool's shaft. (17")

Rex Tool

A lock pulling tool, shaped like a "U" with sharp tapered blades that bite into lock cylinders of all shapes and sizes. Extra leverage and original head design provide the mechanical advantage to pull well secured lock cylinders. Opposite chisel end is used to drive rim locks after cylinders are removed.

REXT \$150.00

Roof Pro Bar

\$225.00

FHRPB-30

This Pro Bar is roofman's dream. It is equipped with welded rings on either end, and a strap. Just attach a rope to one end and use it to vent the top floor windows of a building from the roof.

Farr Bar

36"-**\$250.00**

48"-**\$275.00**

A Multi-Purpose Fire Service Tool also known as the Vulcan Tool or Lund Tool.

A new and innovative design of a combination ROOF HOOK and the Fork End of a PRO-BAR (Halligan). This tool is 36-inches in length and comes with Celtex grip, two(2) welded rings, and reflective shoulder strap.

Jonny Bar

\$250.00

A new Multi-Purpose Tool that is extremely effective. Its compact size (30") and sling allows it to be carried "hands free" and quickly deployed during interior firefighting operations.

Pro-Maxx 24

\$325.00

The 14 in 1 FireMaxx and our 24" Pro Bar combined with two rings and reflective shoulder strap giving you the ultimate multi-function tools.

Truckman's Tool

16" **\$65.00**

12" **\$50.00**

Available in 12" or 16"

A-type lockpuller that can do it all... gas shut-off, nail puller, hammer, pry-bar, wedge tool, venting tool, pull trim, snap padlocks, make examining holes, pull lath plaster, vent windows, and probe during searches.

Kelly Tool

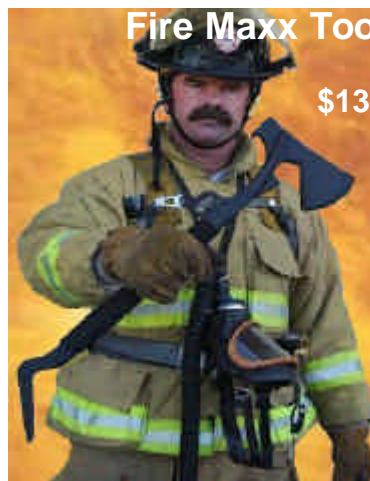

\$185.00

This tool is a 30" Bar with or without Celtex grips. Similar to the Pro Bar but without the Pike.

MAXX TOOLS

Fire Maxx Tool

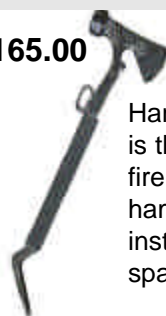

\$135.00

"14 in 1" - Features in a one piece Firefighting Tool

Hydra Ram I: Weights only 11lbs with **4" max. thrust opening** and 10,000lbs of force. Includes carrying bag and mallet.

Hydra Ram II: Same as Hydra-Ram I except it Weights only 13lbs with **6" max thrust opening**

Pad Lock Breaker

Also Known as the Duck Bill Tool

\$100.00

FHULB-1

Save the jaws on your bolt cutters by using this tool to open pad locks.

Breaks the strongest padlock when placed in the shackle and struck with a maul or the back of an axe. Especially useful in roll-up doors on tax-payers and/or commercial buildings found in shopping malls. The 18" handle keeps hands safely away from strike zone. Handle is rubberized with celtex grip for shock absorption.

Auto Rescue Kit

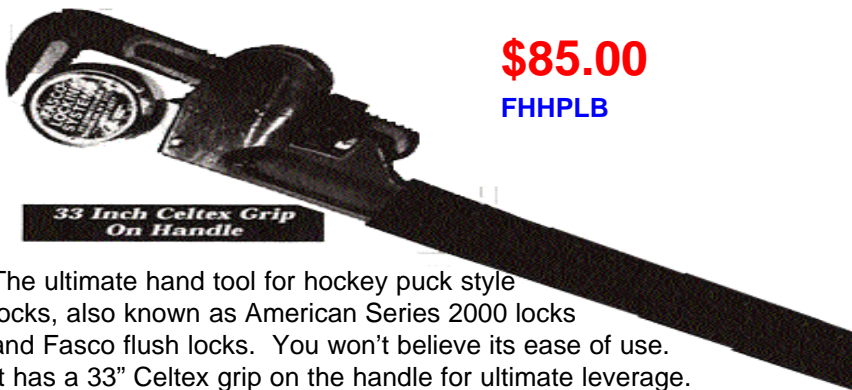

This four piece kit includes:
Spring Punch
Trunk Key (Kerry Key)
Seatbelt cutter
Shove Knife

\$20.00

FHARK

Hockey Puck Lock Breaker

\$85.00

FHHPLB

The ultimate hand tool for hockey puck style locks, also known as American Series 2000 locks and Fasco flush locks. You won't believe its ease of use. It has a 33" Celtex grip on the handle for ultimate leverage.

Shove Knife Tool

Our shove knife is the fastest , damage free means of opening residential, office interior doors with the key in the knob type locks. It is used extensively in fire towers to slip spring latch locks. The design makes the knife work from either side of the door. If the door opens inward, you shove the knife in back of the molding stop and retract the latch. For doors that open towards you, the knife is slipped in from above or below the latch point, jiggle and pull to retract the latch. A protective

\$5.00 SK-6

Spring Punch

Bail Out & Tagline Combo Kit

Compact Bail Out Tagline Bag

What everyone has asked for - a Bail Out / Tagline Kit that does not take up much room

1/2 the size of a normal 35' or 50' 8mm Rope Bag

Available in 25', 35' and 50' sizes! Includes Nomex Bag Kevlar 8mm webbing - 5000 lb rating

Attaches to your SCBA/Belt or sits in your pocket.

Use it to Bail Out with or as a Search Line. NFPA Omega Locking Carabineer included

25 ft of Rope	\$69.29
35 ft of Rope	\$85.29
50 ft of Rope	\$111.00
70 ft of Rope	\$124.65

Choice of Red, Blue Orange, Yellow or Black for your bag color

SCBA Bail Out Kit Carry System

\$30.99
FRAME

Our SCBA Escape Bag Carry System attaches to the rear frame of your SCBA. It is designed to hold our Bail Out Kits with 50 feet or less of rope. The large flap is easy to open for quick deployment of your bail out kit. It is made of Nomex and is available in Red, Blue, Green Blue and Black.

Partner Tether Pack

\$24.99
PST10

The 10' Nomex Shell Kevlar Partner Security Tether keeps you attached to your partner while engaged in search and rescue operations. As opposed to staying on top of your partner, the Tether

allows you to move more freely while still in arms reach of you partner. Having the opportunity to move more freely speeds up search time, ultimately giving you the ability to cover a larger area. Available in 15, 20 and 25 ft lengths.

Escape Rope Bag

The TFS40 Rope Bag holds up to 50' of 8mm Escape Line. Your attachment point is a heavy duty swivel scissor clip. The bag can also be placed directly in your bunker pants pocket! Made of 1000 Denier Cordura. Available in Red, Blue, Green Orange or Black

\$15.79 TFS40

Drag-U-Safe

\$9.99
DUSSK

A 7' Drag-U-Safe Strap is coiled to fit in a Cordura pouch the size of a deck of cards. The life rated webbing has two handles that allow you to easily pull an injured person or firefighter to safety. Any tool fits through the handles allowing two firefighter's to drag from each side. Universal handcuffs can be created to hoist a victim from a hole or narrow opening. The Drag-U-Safe Strap Kit attaches

to any SCBA Harness or belt for easy and quick access.

Drag-U-Safe Pro

\$36.49
DUSSKPRO

Made of heavy duty tubular webbing, built in soft handles, three carabiners. Rated at 2400lbs Functions: Drag a victim to safety, haul cylinders, short search line, aids in carrying tools, a hose strap. Includes strap to fold up and hold unit together!

Bail Out Kit

Firefighters have used it to bail out of burning buildings. The idea behind the bag was to provide a low profile rope deployment system that was easy to use and affordable. The bag sits in the bunker pants pocket with the yellow strap hanging outside the pocket.

When you run into a critical situation, reach down and pull the bag out of the pocket. Grab the carabiner, which is laced through the snaps in the bag, and pull it until the snaps come undone. Holding the carabiner, throw the bag out the window. The rope will deploy until there is none left. Find a place to anchor. Either use a descender and a harness to rappel or use the method of placing the rope around the lower back using your hands as a friction device.

Bags in Red, Black, & Yellow

FAST SLINGK

The **FAST SLINGK** is a multi-purpose tool made of 4200 lb TECH Tape webbing. The yellow loop has a eight foot circumference with the red and blue 4 feet each. Stretched out end to end is 8 feet! Purchase by itself, with a NFPA Biner and/or Bag.

Fast Harness: The red and blue loops are placed around each leg while the yellow loop is placed around the body and pulled up to the front of the face. The legs and torso are supported to lower a victim to safety.

Drag Strap: the loops stretch out to 8' in length making it ideal as a DRD (Drag Rescue Device), around the back and under the arms.

Haul Cylinders: The red and blue loops can be wrapped around cylinder heads while the yellow loop becomes your shoulder strap.

Search Tether: A person on each end of the FAST Slink is an ideal tether for large area searches.

Door Breach Control: Place a slip knot over any door handle to control the breach of a door. This allows you to stand back preventing injuries from tools and/or flash over.

Supply Hydrant Strap: Place a slip knot over the end of the supply line and throw the large loop over the hydrant to keep your supply line in place. Also can be used to move hose lines. One end around the end of the hose with the large loop becoming your shoulder strap.

Truck Company Tool: Wrap tools such as saws to be pulled up to roof operations.
MVA Operations: Securing doors and anchor strap for personnel working on hills

Rope Bags

FDNY Life Saving Rope Bag

\$46.99 BBAB232

FDNY Life Saving rope bag meets and exceeds all of the FDNY specs. The bag is designed to hold 150' of 9/16" FDNY 3 strand spec rope or 175' of 1/2" rope. The bag measures 15" H x 14" W x 6" D. Sewn into the bottom of the bag is a 1" heavy duty "D" ring, which secures the end of the search line. The top of the bag is secured with a flap closure and two metal snaps. Additional side flaps insure the contents remain inside. The top flap has a 3 1/2" x 4 1/2" opening which allows a life line to be deployed and/or replaced back into the bag. The snap closures on the top insures the contents stay inside the bag during use. A 2" web shoulder strap with an automotive seatbelt buckle allows for quick adjustment or removal in emergency situations if the user becomes tangled. All seams are pre-sewn and bound for extra strength. All materials are American made and built to the highest standards. Color: White

Personal Rope Bag

GFNYFDREG

Up to 40" Waist

Up to 55" Waist

The NYFD Escape Harness easily integrates with all turnout gear. Left or right handed opening is available to accommodate the opening of your bunker pants. The center tether is connected to two side D-Rings that pivot in the direction the tether is positioned. This eliminates stress on the harness straps. The center tether when extended is above the firefighters center of gravity to prevent rotating upside down when in an egress position. The tether attachment points are on each side of the body to maximize your center of gravity. We have included a V-Ring on the tether that can move freely left or right to always provide you with a taught tether. The tether (when in idol position) easily folds across the waist and is connected with two quick release straps. Also included is leg strap loop that holds the two leg straps together to prevent riding on the back of the leg. Additionally, you are provided with belt loops that attach between the snaps on the inner and outer layer of your bunker pants. These straps will keep your harness in place at all times.

FESH System - Class II Harness

Our Class II Harness - Made of 6000 lb Nylon webbing. Includes double locking pressure buckle - 4000 lbs, 5000 lb side D- Rings, and fully adjustable leg straps with 5000 lb pressure adjusters. Permanently stays on your bunker pants with side pant pull strap belt loops. One size fits all.

The Glove Keeper

\$4.79 GFGKEVLAR

\$3.99 GFGK

The Glove Keeper is the only NON - VELCRO Firefighter's Glove Holder on the market.

Velcro holders have a tendency to get filled with lint and debris, not allowing them to stick together and securely hold your gloves. Being made of nylon, Velcro may melt quickly when exposed to heat, and if the Velcro strap were to get caught on or brush against something, it may pop open unexpectedly releasing your gloves.

The Glove Keeper's many benefits resolve all the frustrations Firefighter's have expressed with Velcro holders. Quickly place any size Firefighter's or rescue gloves through the loop and cinch it tight. You will never lose your gloves, and will even have room in the holder to hang your Nomex hood. The Glove Keeper has a split ring that attaches to any D-Ring on your gear, and an extremely durable utility clip is included for those styles of turnout gear where D-Rings are not included. A small safety ring will break apart at approximately 65 lbs. of pressure to ensure your safety while in a structure, and the Glove Keeper is rated to 421 degrees Fahrenheit so that it will take the heat. * Now available in KEVLAR with a heat rating of over 421 degrees.

Available Colors: Yellow, Gold, Orange, Black/Yellow, Maroon, Red, Royal Blue, Purple, Black, Pine Green, Kelly Green, Dark Green, Black/Red, Tan, Camouflage, Smoked Gray, Navy Blue, Red/White/Blue.

Glove Keeper II

Our Glove Keeper II wraps around any size gloves. The male/female connector clips together with ease and then is cinched tight with the d-ring. To release the gloves, simply pinch the connector!

The D-ring can be used to hang other objects such as flashlights.

Available in Red, Yellow, Blue, Black, Orange

\$3.99 GFGK2

Glove Keeper III

\$4.99 GFGKIII

The Glove Keeper III is the only NON - VELCRO Firefighter's Glove Holder on the market. Velcro holders have a tendency to get filled with lint and debris, not allowing them to stick together and securely hold your gloves. Being made of nylon, Velcro may melt quickly when exposed to heat, and if the Velcro strap were to get caught on or brush against something, it may pop open unexpectedly releasing your gloves.

The Glove Keeper's III's many benefits resolve all the frustrations Firefighter's have expressed with Velcro holders. Quickly place any size Firefighter's or rescue gloves through the loop and cinch it tight. You will never lose your gloves, and will even have room in the holder to hang your Nomex hood.

Included is a Scissor clip for easy attachment to any d-ring on your gear.

Velcro Glove Straps

Our Velcro Glove Straps are made of high strength nylon webbing. Its heavy duty hook and loop Velcro provides for a strong hold on your gloves. Incorporated into its construction is a heavy snap hook, scissor clip, or swivel clip (depending on style) that allows you to attach it to and D-ring on your gear! The Kevlar Strap includes FR-fire resistant Velcro.

Wedge-It

Ribbed construction for maximum strength while weighing less than 3 oz.

Virtually indestructible because of LEXAN plastic construction, the same as bullet proof glass

Small enough to fit in a pocket, strong enough to hold open the largest of doors and portable enough to hang on a uniform or trauma kit

Four non skid polyurethane pads prevent it from sliding when placed on top of door or on smooth surfaces

Notched to fit over top of hinge pin and hole is provided to assist with carrying

Eliminates the use of rolled up newspapers, flower pots, doormats or other objects to hold doors open

Available in Yellow,
Green, Black or Orange

Only
\$7.75 each

Multi Wedge

GFMW

Bottom of Door, Hinge, or Top of Door Our Multi-Wedge Door Wedge does it all! Fits on any hinge, the top of the door, and/or bottom of the door. Made of aluminum to keep it light and last forever. Attaches to your gear with a heavy spring clip.

Only
\$4.99

Single Door Markers

GFSDM100

When searching a large occupancy building, rooms can be searched over and over again. Save time and manpower with our search door markers. Once a room has been checked, simple hang the marker on the door and alert those searching that the room has been checked.

Only
\$24.95 for 25

Available in orange or yellow. Custom imprinted messages are also available. Sold in packs of 25 or 100

Only
\$69.99 for 100

Double Door Markers

GFDDM100

GFDDM25

These door markers simply snap over the knobs on both sides of the door to prevent closing while firefighters are searching a room. Convenient to carry. Works better than other temporary methods to mark doors.

Available in orange or yellow. Custom imprinted messages are also available.

Sold in packs of 12 or 100

Only
\$139.99 for 100

Only
\$24.95 for 25

Door Marker Carry Pouches

These handy pouches can hold either 12 or 24 door markers. Remember to specify single or double door markers.

DDM24	holds 24 double	\$15.00

ZipWall® is an award-winning barrier system. It has been honored by the press and hailed by the

FIRE/RESCUE, LAW ENFORCEMENT and MEDICAL INDUSTRY, as well as by builders, painters, carpenters, floor refinishers, demolition workers, restoration companies, do-it-yourselfers. It is as a simple and effective method of controlling dust by isolating the worksite from other areas.

The patented ZipWall® spring loaded barrier system consists of telescoping twist lock ZipWall® poles available in both twelve and twenty foot lengths. The system locks the screening material (ordinary plastic sheeting, light canvas tarp or drop cloth) firmly against the ceiling, creating a "virtually airtight" barrier. Once in place, just lift and tuck the screening

material under the pole to create a tight barrier from top to bottom.

EQUIPMENT

The SLP™ pole has the spring loaded plunger built right into the pole. The plunger is made of polycarbonate and is incredibly strong yet the SLP™ pole weighs in at just over a pound and a half. This makes them hard working on the job yet easy to handle and transport. The poles extend from 4' 9" to 12', just right to reach any standard ceiling. This product has received raves from This Old House magazine, Remodeling magazine, and many others. The readers of Building Products magazine gave the ZipWall® system the Readers' Choice Award for 2006.

The Glider

THE GLIDER• Evacuates both up & down stairs

- Weight capacity of over 650 pounds
- Sturdy aircraft grade aluminum
- Glider mechanism for smooth descent
- Weather proof open-weave polyester
- Comfortable non-slip rubber grips
- Leg sling/rest
- Additional leg restraints
- Safety harness
- Arm rests and safety restraints
- Removable head restraint
- Two large storage pockets for first aid equipment

Our newest chair, THE GLIDER, is redesigned to evacuate downstairs with **only one person** maneuvering the evacuation chair.

This chair is the perfect evacuation solution for mobility. Many people are immobilized by their injuries during emergency evacuations, and require quick, safe transportation to medical aid..

Dimensions:

Folded: 60" x 24" x 11"

Unfolded without headrest: 60" x 24" x 37"

Model 1310
\$1080.00

This chair helps reduce trauma and gets the injured away from danger quickly. Whether it's used in the home or hi-rise building, THE GLIDER is the ideal device for fast, safe evacuation. No other devices exceed our evacuation chairs in quality, reliability and functionality.

The First Response Chair

Dimensions:

Folded: 60" x 24" x 11"

Unfolded without headrest: 60" x 24" x 37"

Model 440
\$599.00

In many emergency medical situations a first aid kit is just not enough. Many people are immobilized by their injuries and require fast, safe transportation to urgent medical care. That's where the *First Response Chair* makes a difference. Physically lifting an injured or immobilized person can be dangerous even with proper training. This chair helps reduce the trauma effect and transports the injured or mobility impaired away from immediate danger quickly and comfortably. The First Response Chair comes with it's own first aid kit and emergency blanket. It's wide pneumatic tires help navigate over and around obstacles and, like all the chairs, it is designed for stairwell evacuation. Other features include quick release upper body straps, arm and leg rests, leg slings and multiple points of lift. The First Response Chair folds for compact storage and comes with hardware for wall mounting.

Model 440

- Weight capacity of over 600 pounds
- Sturdy aircraft grade aluminum
- Weather proof open-weave polyester
- Comfortable non-slip rubber grips
- Leg rests with slings
- Safety harness
- Arm rests
- Large storage pockets for first aid equipment
- Arm safety restraints
- All terrain pneumatic tires

The Emergency Chair

Model 400

- Evacuates both up & down stairs
- Weight capacity of over 600 pounds
- Sturdy aircraft grade aluminum
- Heavy-duty sailcloth
- Comfortable non-slip rubber grips
- Leg safety restraints
- Safety harness
- Arm rests
- Arm safety restraints
- Rugged polyurethane wheels

This chair is the perfect evacuation solution for the mobility impaired. Whether its used in the home or hi-rise building, **the Emergency Chair** is the ideal device for fast, safe evacuation. No other devices exceed our chairs in quality, reliability and functionality

- Folds flat to mount on almost any wall

- Mounting hardware included
- Weighs less than 25 pounds

Rescue Alive Ice and Water Rescue Platform

\$2995.00

Thin ice is a trap and every year hundreds of people fall into that trap. Victims have only minutes to help themselves because hypothermia quickly impairs a victim's ability to hold on to ice. It makes him shiver violently and clouds his thinking. As the victim's core temperature drops, he experiences disorientation and he becomes dangerous to the rescuers. This all happens within minutes of entering the water! Get the very best equipment for ice and cold water rescues. RESCUE ALIVE enables your rescuer to run over very thin ice by distributing his weight over a large surface or to paddle through open water to reach a victim quickly. The unit weighs 88 pounds and provides 600 pounds of flotation. The unit is deployed by releasing one Velcro™ strap, which is then used to tether the modified paddle. Your rescuers stay out of the water; there is no need to crawl or swim to approach a victim. Rescuers remain on top of the surface, working from the stable platform. The rescuer stays in control of the victim.

RSQALIVE

EQUIPMENT

Water Rescue Jaws

With Water Rescue Jaws, you can:

- Probe in deep water with the 18 foot telescoping pole
- Search effectively in open water
- Search effectively in muddy water
- Search through ice
- Search through slow currents
- Retrieve a victim without the threat of puncturing skin
- Store easily in a 24" by 72" area

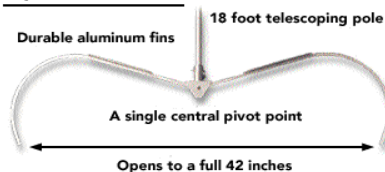

Water Rescue Jaws
UNBROKEN CHAIN RETRIEVER
Reach — and save — victims from the surface of the water!

\$189.50

WATERJAWS

Specifications

The Water Rescue Jaws enable surface teams to continue their rescue until they are relieved by divers. This provides an unbroken chain of effort to retrieve a victim while he can still be revived.

The Water Rescue Jaws is a reach pole that grabs a victim and holds him until he reaches the surface. A short downward thrust opens the "J" shaped tongs to a width of 42 inches. When downward motion stops, the tongs automatically close. As a victim is lifted to the surface, the upward movement through the water, along with the force of gravity, keeps the tongs closed, securely grasping the victim. The tongs are made of blunt ended aluminum to avoid puncturing the victim's skin.

Pick Of Life Self Rescue Awns

\$19.95 per set

PICKOFLIFE

Pick of Life can get you out!

The Pick-Of-Life is a life saving tool for anyone venturing out onto the ice. Rescue professionals, ice fisherman, snowmobilers and outdoor enthusiasts rely on the Pick-Of-Life as standard safety equipment. The Pick-Of-Life provide solid hand holds enabling a victim to climb out of a hole in the ice.

An Ice Safety Guide is included with the Pick-Of-Life. The Guide supplies users with self rescue procedures and load bearing information to assist in making safe decisions.

Water Safety Light

New! from Cyalume, the SOLAS PML® is a water safety device that is both Water Activated and Manually Activated. This new device uses Chem-Light® technology and electronics.

- The white S.O.L.A.S approved light will start flashing automatically when immersed in water. (for unconscious users)

The Chem-light® portion of the device is manually activated when squeezed: bend, snap, and shake. Then remove protective sleeve to reveal the 360° of Chem-light® illumination. Both the Electronic light and Chem-light® are visible up to 1 nautical mile (3 miles by air), 8 hours of emergency light.

SOLAS PML® offers one hand activation, PFD clip, 4 year shelf life, and is light weight, non-toxic and waterproof.

Cutoff Saw

Rescue operations demand fast and reliable cutting equipment. Super Vac's response is the SVC3 Power Pro Cutoff Saw, a high-performance saw designed for the fire and rescue service. The SVC3's rugged, light-weight engine turns an industrial diamond blade that's voracious enough to cut through a variety of materials including residential roofing, concrete and rebar, and sheet metal – all without the use of water. Fire and rescue features include a multi-position cutting arm, a blade safety shield that adjusts without having to fumble with hard-to-grasp knobs, a D-ring pull handle, and a manual compression release for quick starts. A water tube dust suppression system is standard.

Fast and Easy Starting:

The easy blue spot color button can be pushed easily to activate a compression release for 70% reduction in pull rope resistance.

The Blade:

Cuts through anything you throw at it: stone, concrete, steel, and aluminum.

FH12FDPKG

Partner Saws FD-K12

The K 1250, with an impressive 5.8 kW output, is the most powerful saw on the market. Despite the large and powerful engine, the saw is easy to handle and flexible to use. The K 1250 is a superb saw for work on large foundations, robust beams, big pipes or large roof or wall components. The Easy Start feature ensures 50% easier starting by reducing the compression in the cylinder during starting. Self-lubricating clutch bearings for extended work life.

Partner Saws FD-960

The new K 960 is a big step forward in the development of power saws. The K 960 is the latest and most powerful saws, featuring the revolutionary new DualCharge engine technology. DualCharge dramatically reduces emissions, compared to earlier engine generations. And even though the K 960 is based on the well-known K 950, the improvements are so extensive that it is an entirely new saw. The K 960 is a unique machine, in a class of its own when it comes to emission levels, efficiency and manoeuvrability. The Easy Start feature ensures 50% easier starting by reducing the compression in the cylinder during starting. Self-lubricating clutch bearings for extended work life.

Sabre Tooth Diamond USAR Blade

FHSTB12	12" Blade	\$275.00
FHSTB14	14" Blade	\$325.00
FHSTB45	4.5" Blade	\$95.00

This exceptional diamond blade has been specifically designed for Urban Search & Rescue (USAR) teams because it will cut any material. It is specifically crafted to reduce heat during the cutting process.

Blade for blade, the ratio is 100:1 of a normal steel (aluminum oxide) or a concrete (silicon oxide) blade.

Cuts any material. Especially works well in cutting metal - locks, bars, concrete, steel, roll-ups, car posts and any material found in a forcible entry situation.

The 4.5 inch blade can be used with a battery operated grinder to cut hurricane glass found in coastal buildings or just locks, bars or anything in limited spaces.

The cutting surface of this blade is made with diamonds, carbide and tungston (a heat and corrosive resistant material). It makes the blade almost indestructible when cutting any material. This blade is a forcible entry MUST, along with a light weight saw such as the Partner K-750, 12-inch model. Can be used on any power saw and has a double arbor size 20mm with a knockout to 1 inch. Available in 4.5", 12" and 14"

Tiger Tooth Diamond Blade

NEW and UNIQUE all purpose blade - will cut any material. The ratio is 100 to 1 of a normal steel (aluminum oxide) or a concrete (silicon oxide).

Cuts any material found in the fire service. Locks, bars, concrete, steel, roll-ups, car posts and any material found in a forcible entry situation.

The 4.5 inch blade can be used with a battery operated grinder to cut hurricane glass found in coastal buildings or just locks, bars or anything in limited spaces.

Made with diamond, tunsten and carbide mixture. It makes the blade almost indestructible when cutting any material. A forcible entry must along with a light weight saw such as the Partner K-750, 12-inch model.

K-950 Concrete Cutter Saw

The K 950 Chain engine is based on the popular K 950 and includes all of its technical and ergonomic advantages. With a concrete chain saw you get better access in tight situations. You get sharp corners without over cutting and can make up to 15" deep cuts from one side. This makes the concrete plunge saw a perfect complementary cutter where the first cut are made with a conventional cutter with a blade. Easy Start Ensures 50% easier starting by reducing the compression in the cylinder during Active Air Filtration™ Centrifugal air cleaning in three stages increases service life and extends the intervals between services..

The Fire Tuff Chain Saw

This saw is made to tackle any chain saw operation.

- * Exceptional forestry application.
- * New X-TORQ engine provides high torque over a very wide RPM range.
- * Low exhaust emission levels, in accordance with EPA #2.
- * Durable and robust saw body, cast three piece crank shaft and reinforced crankcase.
- * Ergonomically improved handles reduce fatigue.
- * Air injection makes the saw run stronger and longer.
- * Smart-Start and purge pump provides east starting.
- * This saw is make for multiple rough ON and OFF operations.
- * Weighs a perfect 12 lbs. of weight distribution.

The FIRE TUFF comes with these additions...

- * A powerful 3.5 horsepower engine
- * Bar and Chain Included - 18-inch bar with chain to handle any operations
- * Orange Powerbox carrying case that protects and holds saw and equipment in a secure fit by using the exclusive "Leash System"
- * Reflective saw shoulder carrying sling
- * Wrench holder attached to handle for on the scene adjustments
- * Large D-handle for glove friendly pull starts
- * Saw scabbard for safety, chain protect on and attachment of our reflective shoulder strap

This includes the case, saw, reflective carry strap, chain cover

Gasoline Power Saw with 20 mm Arbor

Unique piston provides outstanding performance

These portable cut-off saws (BTS series) prevent piston jamming and are thus unbeatable when it comes to performance and economic efficiency. Their extreme ruggedness is based on the unique "L3" piston; the name L3 refers to "Long Life Lubrication". The innovative air cleaner design and the improved engine cooling system provide for added reliability. The BTS series offers the highest power to weight

ratio of their class plus outstanding ergonomic features.

The "Long Life Lubrication" L3 piston has been furnished with a special graphite surface coating to eliminate piston and cylinder overheating even during tough continuous operations. This special coating also provides protection against dirt and reduces the need for lubrication

Units feature an operator-friendly air cleaning system where the air flow is such that the dust is automatically shaken off the preliminary filter through the machines own vibration. Plus the 54 % larger filtering surface of the air cleaner noticeably increases the filter's service life.

The increased cooling air supply optimizes the engine's protection against overheating.

The starter rope has been treated with silicone, thus providing added protection against rope damages for rugged operation

The blade guard can be adjusted effortlessly and infinitely by hand, thus allowing for quick and easy set-up times.

WACKER

Low Vibration Electric Breaker 115V

These electric universal breakers can be used, in addition to breaking up and demolition work, for driving in earthing rods as lightning conductors, driving in piles using special hoods, and ramming in probes to obtain soil samples for geological purposes and environmental soil examinations. The telecommunications construction sector, and fencing/tent building companies are also frequent users of this type of equipment.

Driven by a powerful tried and tested electric universal motor with protective insulation for connecting directly to the mains.

A specially designed protective hood, which is made of shock-resistant plastics, ensures excellent cooling of the motor as well as ensuring good noise suppression.

The vibration-damped handles and, in particular, the almost recoilless air-cushioned percussion system, ensure a practically vibration-free operation.

Thanks to the optimum spring mounting of the three operating handles and the complete engine protective hood this machine is suitable for long periods of operation.

All types of accessories are available, see our website for a full description.

WACKER

Handheld Electric Breaker 115V

EH9BL

The innovative magic drilling and chiseling hammers save money because they lose no time due to maintenance and failures: The three-phase AC motor means that there is no changing of worn-out carbon brushes. Failures due to burnt-out windings in the rotor of the motor are likewise a thing of the past. On the other hand, the built-in frequency inverter is a very useful feature, since it means that magic electric hammers can be plugged in to a standard mains socket. No wear at all: non-contact rpm setting. Consistent and concentrated performance in hard and soft materials due to the new high-tech percussion system. Undoubtedly safer operation for the user due to the unique built-in converter: automatic voltage-matching protects against under- and over-voltages.

The work becomes less tiring thanks to the individually adjustable Pro-Ergo® handle system: Quick and easy shifting of the holding position during the work means more can be done in the same time.

Optionally can be equipped with SDS-max (BLM) or hexagonal tool shank (BL).

All types of accessories are available, see our website for a full description.

LumiNite 360 Degree of Clear Lighting

The Luminite is designed to fill the temporary lighting needs for events, construction, emergency responders, recreation and where you need lighting without transporting those big light trailers. The unit comes in a fiberglass case for transportation and storage and fits in the trunk of a car. Simply remove the lid, plug in tower to 110V or a generator, turn fan on and the tower is filled with air via a built-in fan in less than a minute to give you a 15 foot tall tower. The light source is a 875 watt metal halide bulb that reaches full brightness after about 5 minutes. The unit is so quiet you can stand beside the unit and carry on a normal conversation.

The tower body is made of a light weight ripstop material that acts as a light tube to give off a very even matt lighting. The quality of the light is easy on the eyes and excellent for reading or work.

The Luminite is a light source that will light up to 100,000 square feet anywhere that can be easily transported in the trunk of a vehicle and deployed by one person.

The light is a crisp clean light, which is great for crime scene operations.

The Luminite light collapses to only 2 feet for easy carry and storage (2 ft x 1.5 ft x 1.5 ft)

Great ground stability

**Only
\$4,999.99**

This light is used by Police, Fire, Emergency Departments, First Responders, Road Construction, Any type of Night works, National Defense - Homeland security, Utility Companies, Rental business, Pavement Crews, Studios, Public Works Departments and more!.

Why settle for one direction lighting where you need more than one unit, choose the light that gives you 360 degrees of clean bright light.

400 Watt Light Tower

Compact, heavy-duty light towers provide exceptional lighting

Heavy-duty, trailer-mounted light towers feature a compact and narrow body design for easy transport - two abreast on a flatbed truck. Distinctive elliptical light fixtures allow light to travel directly to the work area for brighter illumination. Each light can be individually adjusted without tools and a quick disconnect power cord allows for easy removal prior to transport. The 360-degree rotating mast allows for light adjustment while raised.

Large capacity fuel tank allows for 68 hours of continuous lighting/run time.

A lockable, weather protected, powder-coated steel enclosure protects components from the elements. Zinc/dichromate treated mast and lamp mounted bar provide superior corrosion resistance.

Four 2,000 lb. rated zinc-plated leveling jacks provide easy leveling and stability on uneven terrain and in windy conditions.

Control panel features an elapsed hour meter and a convenient 120V GFCI receptacle with circuit breakers for additional power. Separate engine control panel with full diagnostics for engine protection and operator convenience.

Reliable 1800 rpm diesel engine offers glow plug preheat system for long service life and easier cold weather starting. Automatic engine shutdown protects the engine from damage due to low oil pressure and high coolant temperature.

Fully equipped highway-ready trailer offers combination pintle/ball hitch, 13-inch tires, four tie-downs, DOT lighting, VIN number and chains.

1000 Watt Light Balloon

The light balloon offers optimum, glare-free working conditions

WACKER's LB 1 light balloon features a compact design providing optimal brightness without glare. Ideally suited for general job site illumination, road work, indoor illumination of concrete pours and party rentals. WACKER's light balloon features rugged, simple construction allowing for use almost anywhere a reliable light source is needed. A powerful and portable package to light your job site!

A simple, one-step mechanical balloon opening system eliminates noisy fans and the balloon holds its shape even in wind or if fabric is torn. The balloon's heavy duty, translucent, white rip stop nylon allows diffused bright light from the metal halide lamp to be evenly distributed onto the work area for a consistent, reliable lighting solution.

Reflective aluminum coated upper balloon made of tough kevlar fabric reflects light downward maximizing lumen output at ground level. The rugged three-section, telescoping, stainless steel tripod can be raised up to 13.5 feet for optimal light coverage.

Set up of the fully operational light balloon is quick and easy with minimal pieces and simple assembly. This compact package makes for easy storage and transport.

Carabineers for tie down or stakes through tripod legs offer two anchoring options for security and stability of the light balloon system.

PPV Fans

Gas Powered PPVs

Get The Smoke Out

All Super Vac PPV's feature a cart style design with large rear mounted tires and a flip-up full height, full width handle for easy maneuverability. They feature the exclusive Super Vac lever action tilt, with positions of 20°, 10°, 0° and -10° and a locking step brake to make set-up lightning fast. The textured chip resistant powder coating is baked on to guaranty a finish that is as tough as the rest of the fan. All Super Vac PPV's feature third party verified airflow tested to AMCA 240-96 and can easily be used with other Super Vac fans in the "V" attack configuration

16" Model 716G4

The 716 is designed to compact dimensions that fit the tightest pumper compartments. An excellent choice when light weight and low cost are critical in your district.

18", 20" & 24" Models

The most popular sizes in the industry and the perfect combination of small size and high power. They feature the highest horsepower in their class for maximum airflow.

Perfect for the department with a mixture of residential and small commercial structures in their district.

30" Model 730G4

The most powerful portable fan in the fire service. This fan is a serious workhorse to make quick work of

ventilating larger occupancies. Perfect for the department with large commercial structures in their district.

Model GP164S

The GP164 is the smallest gasoline

powered fan in the industry. The versatile design features the ability to attach duct to the inlet or outlet side of the fan. An excellent choice when size and versatility are required in your district

Electric Powered PPVs

The power comes from your choice of Standard, Variable Speed or Hazardous Location electric motors. All units are designed to provide the maximum airflow out of a 1 Horsepower motor that can be safely plugged into any standard 15 amp wall socket. These motors come with a factory approved two year warranty. The rest of the fan is covered by Super Vac's five year warranty. The direct drive system eliminates belts and pulleys for years of trouble free operation.

The VR2 series features rheostat control of speed function. Will operate on GFI circuits

The VS2 series features digital control of fan speed with a reversing function.

Note: Not for use on GFI circuits.

The EXP models feature a conductive, aluminum blade for the highest level of

explosion protection in the industry. Perfect for the department that wants to be able to use their electric PPV for all types of ventilation situations.

The E2 models feature a tough, no frills method of supplying clean air to a structure. Perfect for the department buying their first electric PPV or when budgets are tight.

Smoke ejectors come complete with all of the features that make Super Vac the most respected name in emergency ventilation. The heart of these units is the patented, cast aluminum, 4 blade, recurve propeller designed specifically for smoke ejection. Poured in Super Vac's foundry of the toughest aircraft alloys, the blade is the perfect combination of a low noise, high output design.

Model P164

The P164 is the most popular unit in the fire/rescue service. It is the perfect combination of high airflow and easy to handle size. The single most popular fan in the history of the fire service.

Model P200

The P200 is capable of bigger ventilation tasks and higher airflows. At 1 horsepower it will run on standard 15 amp household circuits. Perfect for the department that has a mix of residential and commercial buildings in their jurisdiction.

Model P244

The P244 is the largest smoke ejector available. Perfect for the department that has a mix of large residential and mid-sized commercial buildings in their response area. Note: Requires a 20 amp circuit to start and run.

Model P124

The P124 is designed for high powered air movement in a compact size. Turning at 3500 rpm the fan is small but mighty. Perfect for the department that wants to eject smoke and have a small unit for confined space ventilation and commercial buildings in their jurisdiction.

Premium Portable Generators

Rugged and powerful generators for the most demanding jobsites

Designed for emergency scene, construction rental and other demanding applications, these high performance, portable generators deliver unmatched tool starting and voltage regulation in a rugged, compact package. Built the WACKER way, with heavy-duty frames and premium components to provide long, trouble-free operation even in abusive environments. Ideal for powering high starting amperage tools such as compressors, grinders, fusion welders, saws, pressure washers as well as all of your WACKER electric- powered pumps, breakers, drills, concrete vibrators, etc.

Best in class tool starting and voltage regulation due to unique step-start generator technology with AVR (automatic voltage regulation) and separate excitation winding.

Full wrap-around frame with dual cross-member support, high impact polyethylene fuel tank

and heavy duty shock-mounting combine to provide outstanding impact protection. A super quiet muffler allows for versatile operation. Available with the high performance WACKER OHC engine (on GP2600 and GP4000) or Honda OHV engine, both feature low oil shut-down.

Item#	Description	Price
GP2500A	2500 watts /4.1 kw output Honda engine 120V	\$1208.00
GP2600	2600 watts/4.2 kw output with Wacker engine 120V	\$1208.00
GP3800A	3800 watts/6.0 kw output with Honda engine 120/240V	\$1783.99
GP4000	4000 watts/6.0 kw output with Wacker engine 120/240V	\$1783.99
GS9.7V	9700 watts/13.4 kw output with Vanguard Storm engine includes voltage selector	\$3411.99

Other models available, contact us or see our website.

Value Portable Generator

Reliable portable power in a value package

Commercial grade portable generator series built with the value conscious. Offering just those job site proven features that are really needed, these generators are ideal for powering your WACKER electric pumps, breakers, drills, concrete vibrators, as well as saws, lights, heaters, etc. These generators are also ideal for home and small business temporary power or powering job site trailers.

Powered by commercial grade Honda OHV engine with low oil shutdown and one pull start for optimum performance.

Automatic engine idle control reduces engine wear, noise and fuel consumption. Large steel fuel tank, featuring an easy to read fuel gauge, offers long run times between fills.

All components are protected by a durable wrap-around steel tube frame.

Maintenance free alternator with separate excitation winding and AVR (automatic voltage regulation) for superior voltage regulation and best in class tool starting.

Full 120V power switch for maximum 120V or 120V/240V power -- ideal for a wide variety of applications.

GFCI (neutral bonded to ground) protected 120V duplex outlets complies with OSHA job site requirements.

Large muffler provides for quiet operation.

This multi-functional, patented **JP-2**

eyewear reduces glare in extreme sunlight with polarized smoke green lenses. The innovative Seal-Tek™ system seals your eyes from outside elements. Ultra Foam™ gasket system allows you to determine the configuration on or off the water or snow.

Seal your eyes when the wind is kicking up and eliminate the distracting back-lit glare to enjoy the beautiful surroundings. Remove the gasket and you have a great polarized sunglass for every day wear. Includes the following, Removable Facial Cavity Seal, Soft Case, T-Peg Elastic Strap, Leash Cord, Cleaning Cloth.

LATM - Light Adjusting Blink provides incredible vision both day and night. No more interchanging lenses, this model changes from clear to dark grey in seconds.

Combine this lens technology with the new Facial Cavity™ Seal and encase your eyes in a perfect climate controlled environment for clear, crisp vision that meets the stringent ANSI Z87.1-2003 optical standards. Great for day and night patrolling.

Includes the following, Removable Facial Cavity Seal, Soft Case, T-Peg Elastic Strap, Leash Cord, Cleaning Cloth.

Constructed with a nearly indestructible triloid nylon frame, this Top Jimmie model has a neutral smoke grey lens for clear, crisp vision in the brightest conditions.

Functional TR-90 frame comes complete with removable facial cavity seal™ and tension strap so you can get after it when necessary or remove and set it casually for that walk in the park. Dual injected rubberized temple tips for a comfortable sport grip. Meets ANSI Z87.1-2003 Safety Standards. Includes the following, Removable Facial Cavity Seal, Soft Case, T-Peg Elastic Strap, Leash Cord, Cleaning Cloth.

1500-TL2 Traditional Leather Helmets

Shown with goggles

Shown with Bourke eye shields

The TL2 is made from TOP GRADE Veg-Tanned leather with an exclusive filigree design to commemorate and never forget our fallen brothers and loved ones on 9/11/01. Weighing approximately 55 ounces, it is ergonomically correct and fits comfortably and lower on the head. The inside dome is made of injection molded thermo-plastic, designed for durability. The Impact Cap is closed cell foam (comparable to the foam inside football helmets, designed to take hit after hit). The chinstrap is Nomex Webbing with a standard Postman's slide buckle. Optional chinstrap choices are a quick release style or a combination of both. The earlaps are detachable and made from black Nomex and black fire retardant cotton. The optional sewn-in earlaps are made from the same materials and must be requested, if desired. The suspension liner comes standard with a ratcheting device for easy donning and doffing. The Nape Strap style suspension is an available option. Both are easily removed for cleaning and maintenance. We add a Custom Comfort pad to the front headband for maximum comfort. The NFPA Compliant 3M Reflective Tetrahedrons come in Lime/Yellow, Red/Orange, or White/Silver. The TL2 comes standard with a custom "all leather" ID Shield. A variety of options are available to customize your department. Available in Black, White, Red and Yellow.

As Low as \$385.00 each

Standard TL-2 style, topped with a brass eagle finial. NFPA Phenix Firefighting Goggles (Optional in California) are standard with helmet. ESS Goggles are also available by request. A D-ring is installed on back brim (also optional) for you to hang your TL2 easily. Your TL-2 comes with your accessory pack which includes: The helmet accessory band, 2 wedges and 1 Garrity light. The Flip Down "Borke Style" Eye Shields are available.

Shown with ratchet

TC1 Composite Helmets

Smoke Trainer Inserts

Unlike any other Black Out Cover on the market, We have taken the concept of training without smoke and fire to a new and safer level. The Simulated Smoke Training Insert is made of porous foam that inserts into any style SCBA Face Mask without impeding the seal of your mask. The porous foam limits your vision just like being in a smoke filled room. The product is package together in three simulated grades; light smoke/vision slightly impaired, medium smoke/outlines only seen, and heavy smoke/ vision almost completely blocked. You will now be able to drill in a safe but real life atmosphere. **\$5.99** GFSSTI

New and Innovative SCBA Restraint

The New "Ready-Set-Go" (RSG) SCBA Restraint

Can easily be retro-fitted with any brand SCBA or SCBA Seat patents pending

Eliminates Troublesome Safety Straps

The New "RSG" NFPA compliant restraint uses a completely redesigned system to hold the SCBA in place in the event, the vehicle is in a collision. It uses a positive locking "Halo" to hold the top of the tank in place. And a "Receiver" to secure the valve end of the tank.

The Halo is released when the firefighter simply push's down on the release button mounted conveniently on the seat. The release button can be mounted on the left, right, or front edge of any seat.

Compliant to NFPA 1901-03

Exceeds NFPA standard,

Independent 3rd party tested.

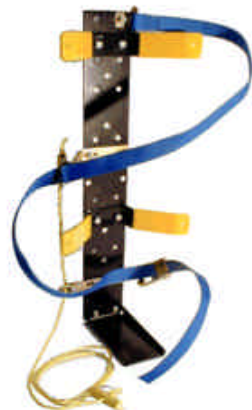

Tested without failure to a

30g impact.

Model	Description	Price
FC15000	30 min high pressure	\$374.99
FC16000	30 min low/45 min high pressure (shown)	\$374.99
FC17000	60 min low pressure/high pressure	\$374.99

SCBA Bracket with Safety Strap

Flamefighter 3-Point Release

In crew areas where SCBA's are stored, keep them locked securely in place with this system. You can don the SCBA while enroute and keep it safely secured. When you reach your destination, pull the lanyard from between your legs, or along side the seat and you are ready to go!! The 14000 fits all brands and tank sizes.

SCBA Seating

FlameFighter SCBA seats are now available with our new RSG innovative SCBA restraint that does away with troublesome safety straps, this new NFPA compliant restraint uses a completely redesigned system to hold the SCBA in place in the event the vehicle is in a collision. Our SCBA seating works with any brand or model SCBA.

The part number for the seat with the new restraint is #FC205 (shown). Our #FC203 (not shown) which has our FC14000 restraint is available as well.

The FlameFighter SCBA seat is built for the rugged demands of firefighting. It has tough 46oz vinyl with high density foam and quality stitching throughout. In addition, the split in the head rest holds the shoulder straps securely in place for easy donning of the SCBA. Large lower openings give the waist belt a place to be out of the way. Available in Grey and Black

\$1210.00 FC205

SCBA Seat Back

The FlameFighter collar cushions offer critical supports and comfort in vehicle crew areas. Special design allows firefighters to strap on the SCBA unit while enroute. All mounting brackets are included. (not shown) SCBA brackets sold separately, standard colors black & grey. The unit is 23" high X 18" wide X 9" deep

Multiple Injury Supply Pack

When disaster strikes and you have multiple injuries, are you ready to respond with an organized pack that has numerous supplies for mass casualties? This pack is designed for treating patients in an open scene environment or in a field clinic situation. The pack features 16 zippered pockets

\$267.99 RBAB215

constructed of heavy clear vinyl and nylon. The stored supplies are easily visible and accessible. A variety of pocket sizes allows for supplies to be stored in their original containers or loose. Three strong plastic hooks and straps allow for the pack to be hung in a tent, from a vehicle or wall. The pack can be stored in the Cordura bag that has double zippers for easy access and security. The outside storage bag is available in the following colors: Gray, Yellow, Red, Royal blue and Green. The internal components are always gray.

GEAR BAGS

Disaster Bags

A disaster bag (a.k.a. Body Bag) made of heavy coated woven polyethylene with a straight zipper and 6 web handles. Measures 35" x 80".

Color: Black.

Head Block/Blanket Pack

\$17.99 RBAB450

This pack is designed to carry head blocks for cervical immobilization devices or can be used to store blankets. The pack keeps the equipment clean yet ready for use. Made from nylon that is durable and easy to clean. A large white coated area for labeling allows for the contents to be easily identified. Adjustable Velcro closure and nylon carry handle make this a convenient pack for storage

of equipment.

Measures: 21" L x 17" W x 5" D.

Pediatric Pack

Be prepared when dealing with pediatric emergencies. This compact Pediatric Pack keeps all the equipment needed for pediatric emergencies organized without needless repetition of supplies. The outside front pocket has ample room for a Child BVM, Infant BVM and a 1000cc IV Pack stored without crushing the equipment. The double self healing zippers allow easy access to the interior storage which has abundance of storage for advanced and basic supplies. Elastic straps hold the intubation equipment and a standing divider with nylon pockets for items ranging from pediatric sizing guides to oxygen equipment. The quick release handles allow the bag to be quickly open and closed, securing equipment even with the zippers open. Constructed of tough Cordura® nylon and Scotchlite™ this pack will offer superb wear. The back of the pack is heavy vinyl allowing durability and easy cleaning. The real versatility of this pack is the light weight and organization versus other packs that are weighted down with redundant supplies. Dimensions: 13" L x 6 1/2" D x 14" H. Wt. 40 oz. Total of 1183 cu. in. Color: Purple.

\$55.99 RBAB926IM

Wt. 22 oz.

\$73.99 RBABESP13

Bicycle Medic Bag

This carry bag has been designed for the bicycle medics. It has large and small storage compartments with dual zippers and storm flaps. A 1 3/8" 3M Scotchlite reflective strip is located on the front compartment.

The hideaway zippered map pouch is perfect for referencing location or additional storage of medical supplies. The map flap tucks behind the floating front pocket when not in use. The map is protected by marine-grade vinyl.

Also included is a quick-release handle bar mount system. This allows the rescuer to quickly remove the bag as needed. A carry handle allows the bag to be used when disconnected from the bracket.

The three-point system usually requires no tools for installation or removal. Three webbing and cam buckle systems lock the mount to most stems and the front face plate pivots to fit both mountain and road bike geometry. To remove the bag, push forward on the center tongue and pull lightly up on the pack. Detailed

mounting instructions located inside each bag.

Wt. 23 oz.

Colors: Royal or black.

Dimensions:

Main compartment: 7.5" (h) x 9.5" (w) x 3.5" (d)

Small compartment: 4.5" (h) x 8" (w) x 2.5" (d)

Map compartment: 7" (h) x 8" (w)

Overall size: 7.5" (h) x 9.5" (w) x 6" (d)

Bicycle Trauma/O2 Pack

A top mount dual purpose bag which may be used as a trauma bag or an oxygen setup. The main compartment measures 10 1/2" L x 7 1/2" W x 8" H with a padded end pocket measuring 7 1/2" W x 6" H x 3" L along with two side pockets and a pocket for two water bottles. A HDSR polypropylene divider provides protection and adds body to the main compartment. When used for oxygen, the polypropylene shell stabilizes the oxygen "C" cylinder. The valve and regulator extends into the highly padded end pocket. The Bikers Trauma/O2 pack attaches to the rack with Velcro® straps and side release buckles.

Made of 1000 denier Cordura® nylon, the bottom of the bag is nylon reinforced vinyl for easy cleaning, and has self repairing #10

YKK nylon zipper with a storm flap. White 3M™ Scotchlite™ Reflective Material and a star of life.

Wt. 40 oz.

\$111.99 RBAB1310

Extra Clips for Pack

These are used to secure the RBAB1310 Trauma/O2 Pack to the rack. With an extra set of clips you can leave them on the bike rack when inter-

changing bags. All #1310's come with one set.

Pack of 2.

\$4.99 RBAB1311

Rear Bike Rack for Medic Packs

\$76.99 RBABEXPRACK

For the original #1310 Trauma/O2 Pack Bag.

The Expedition rack is the rack of choice for cyclists who require exceptional durability and expanded size. Built from 3/8" 6061 aluminum stock, the Expedition Rack is intended to be used primarily where additional rear clearance may be needed for large loads.

The secret to this rack's tremendous strength is a third support strut which angles back 21° from the main load-bearing strut. In addition, the rear support strut offers a 6" long section for attaching the lower portion of your

panniers' suspension system to enable precise positioning of your load. All stress points are double-welded. Mounting hardware included. Wt. 36 oz.

Left Side O2/BVM Pack

Designed to hold a "C" cylinder and a BVM on the back side with four clear vinyl pockets. Made of 1000 denier Cordura® nylon, the back side of the bags are nylon reinforced vinyl for easy cleaning and have self repairing #10 YKK nylon zipper with a storm flap. White 3M™ Scotchlite™ Reflective Material trim and a star of life. Color: Black or Royal Blue.

Measures 15"H x 12"W x 7"D for 1,250 cu. in. of space. Wt. 80 oz.

\$94.99 RBAB1323

Right Side AED Pack

The AED pannier has a pocket measuring 14"H x 34" in circumference which is sufficient room for practically any AED on the market. Four clear vinyl pockets on the flap for miscellaneous supplies. This is a right side pannier because most bikes would fall to the left or be laid down on the left, thus protecting the AED.

Made of 1000 denier Cordura® nylon, the back side of the bags are nylon reinforced vinyl for easy cleaning and have self repairing #10 YKK nylon zipper with a storm flap. White 3M™ Scotchlite™ Reflective

Material and a star of life.

Measures: 15"H x 12"W x 7"W for 1,250 cu. in. of space. Wt. 80 oz.

\$97.99 RBAB1326

6 Pocket Bike Bag

This pannier consists of 6 pockets of different sizes with 3 in the flap and 3 on the back side. The pockets have clear vinyl flaps to view the contents. The pockets allow you to carry loose items, pre-packaged supplies or specialty kits. These can be used as a pair or matched up with either the #1323 O2/BVM pannier or the #1326 AED pannier.

Made of 1000 denier Cordura® nylon, the back side of the bag is nylon reinforced vinyl for easy cleaning and has self repairing #10 Ykk nylon zipper with a storm flap.

White 3M™ Scotchlite™ Reflective

Material and a star of life.
